Happy New Year!

Congratulations to YVEDDI Public Transportation for the 10th Annual 2016 Mobile Clean Air Renewable Energy (CARE) Award presented by North Carolina State University. YVEDDI Transportation is commended for its efforts of reducing transportation related emissions in North Carolina.

YVEDDI Transportation reduced the organizations emissions by converting YVEDDI's vehicle fleet to propane autogas. By making this leap toward a more innovative method for alternative fuel YVEDDI is currently operating a percentage of its fleet using propane autogas and leading Davie, Stokes, Surry, and Yadkin counties to a more healthier and efficient way of commuting in North Carolina.

GREAT JOB YVEDDI Public Transportation, keep up the good work and thanks for helping to make our air cleaner!

New Year's Day

Martin Luther King Day

The Surry County Senior Center partnered with Home Instead Senior Care and put up a "Senior Angel" Tree in our conference room. Our tree had 18 "bulbs" representing 18 senior adults in our area who were in need of Christmas gifts. The gifts ranged from pajamas, to sweat suits to nabs and pudding. These seniors are home bound or in facilities and many of them would not receive a Christmas gift if not for the senior tree program.

We are ecstatic to announce that all 18 bulbs from our tree were picked and I happily delivered 18 bags of gifts for these seniors to Home Instead Senior Care by December 12th where they will be wrapped and given to these senior adults in need. Thank you to everyone who participated. A huge thank you to Home Instead Senior Care who has been doing the senior angel tree program for many years and providing the seniors in our area with a Christmas gifts.

The Surry County Senior Center greatly values our partnership with Home Instead Senior Care and we collaborate on many things during the year.

The Weatherization Assistance Program currently has a dedicated crew of three technicians, who together work daily on the homes of low-income families to reduce air infiltration, install insulation, and perform other energy saving measures. We need one or two more outstanding individuals to assist in the rewarding endeavor.

The ideal candidate for this temporary position would be a good team player, dependable, honest, courteous to clients, hard-working, able to work in tight or confined spaces and willing to work in adverse weather conditions.

Candidates with experience in construction, HVAC, or insulation installation would be a plus.

Interested persons can contact Janet Phillips at (336) 367-3533 send an email to weatherization@yveddi.com.
